**BIO:** Psychedelic hard rock quintet Overdrive Orchestra is an orchestration of sound, soul, and energy. When listening to Overdrive Orchestra, one will never hear the same sound twice. Their sound and vibe has been described as gritty, natural, and hypnotic. Frontman Chris Cranick's lyrical themes touch upon peace, love, spirituality, and enlightenment while also expressing communal frustrations with politics, taboos, and the human condition. Influenced equally by classic rock mainstays like Led Zeppelin and Pink Floyd to modern cult favorites such as Queens Of The Stone Age and TOOL, the band prides itself on their intuitive song writing sensibility and dynamic sonic textures.
